

Li Kiang 3D SHAPE IMAGERY

Some aphorisms, sayings, maxims, adages, dictums, epigrams, proverbs, precepts attributed to Li Kiang by Albert G. Wilson.

1. What is it that the builders of the pyramid knew that we do not know?
What is it that they knew that we also know?
2. The pyramid can receive many projections. It is in the sense a Cosmos. The pyramid can teach us facetism.
3. While each generation projects its own phases, the remarkable thing is that the pyramid adapts to them all.
4. One argues, "This is yet another interpretation we can read into the pyramid." But the pyramid also accepts the reading.
5. The great pyramid is not only a sacred space it is a theophany.
6. The pentagon is the figure of life, growth, and change. The hexagon is the figure of crystals, snowflakes, and stasis.
7. it seems even more of a mystery than nature itself, that we can create an object which can contain so many projections (or has many facets)
